

ANTARES

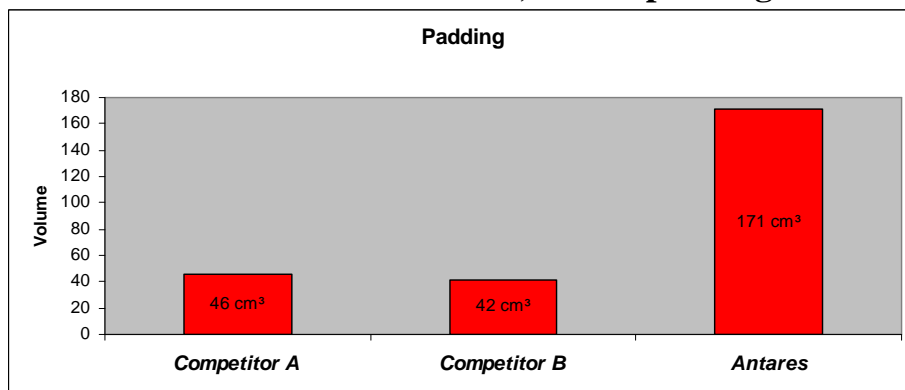

### ANTARES. THE THIRD DIMENSION

Antares is the third 'a' *between* fizik's two other premium a's: aliante and arione. Antares is an "a" product. This is why antares, as arione and aliante, begins with the letter "a". Antares is the third "a" of the fizik road range. Fizik with three saddle dimensions, meets all rider's needs.

Compared to competitors in the ultra-lightweight saddle category, antares has 300% more padding and 50% more flat sitting area, yet, it weighs only **145 grams**.

It's a new dimension embodying all essential fizik elements: comfort, flexibility and the incredible lightness of being.

### 171 cm<sup>3</sup> PADDING: x 3,7 more padding

### 190 cm<sup>2</sup> SEATING SURFACE: 15% more seating surface
